

Haskell Now!

SPONSORSHIP OFFER

WROCŁAW, POLAND, 23.04.2018

module Main where

```
main :: IO ()  
main = putStrLn "Hello, Wroclaw!"
```

Wrocław is a city of culture, education and technology. 401 millionaires, or individuals whose annual income exceeds 1 million PLN live in Wrocław (as per 2014). The city houses factories and development centers of many foreign and domestic corporations.

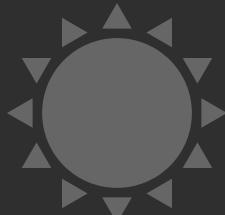

More than 80 companies and twice as many startups have their HQs offices located in the city. What's more three of local startups was highlighted in Deloitte Technology Fast 50 Central Europe 2017 report.

Almost 90 tech meetups gather around passionate and experts from various fields.

In 2018 we want to turn Wrocław into a purely functional city.

Haskell Now!

1 day

2 tracks
beginner/advanced

12 rockstar
speakers

200 participants

8 hours of knowledge
exchange

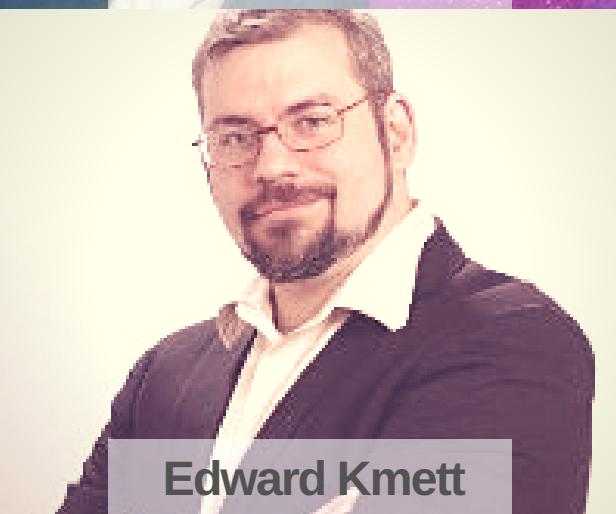

Haskell Now is an excellent occasion for increasing brand value, meeting and hiring experienced programmers. The best way to involve a company into the community.

Create the event with us!

Edward Kmett

Becky Conning

Michael Snoyman

Kris Nuttycombe

Stephen Diehl

What do you mean by
"rockstar speakers"?

Those who are pivotal for
Haskell universe are coming!

We need Your help to fly them over!

- Every initiative needs a support, because no man is an island. We believe that together we can make Haskell Now happen. By cooperation with companies who care by a tech community, we are going to move Haskell world. And we are going to do it Now!
- For companies which want to help us, we have created the offer.

A bronze statue of a 'Wrocławka' (a small dwarf) sitting on a cobblestone street, looking up at the sky.
